EDUCATION

Maharaja Institute of Technology, Thandavapura,
Karnataka *Bachelor of Engineering in Artificial Intelligence and
Data Science Expected Graduation: 2027*

• CGPA: 8.9 / 10.0

Pre-University Course(PUC)

Anweshana PU College, Biligere, Karnataka

- Percentage: 90.5 / 100.0

School (SSLC)

Lions Vidya Samasthe, Hunsur Road, K R Nagar

- Percentage: 90.8 / 100.0

TECHNICAL SKILLS

Programming Languages: Python, SQL

ML/DL Libraries: Scikit-learn, TensorFlow, PyTorch, Pandas, NumPy

Tools: Power BI, Excel, Tableau

Platforms: Google Colab, Kaggle,

GitHub **Databases:** SQL, MongoDB

Technologies: Artificial Intelligence, Machine Learning, Deep Learning, Cloud Computing, Big Data & Analytics

Core Concepts: DBMS, Operating Systems, Data Structures & Algorithms, NLP

PROJECTS

Fake Review Detector | Python, Machine Learning, NLP

2025

- Developed a web-based system to classify reviews as Fake or Genuine using NLP techniques
- Analyzed text patterns such as repetition, sentiment, and contextual detail to detect spam reviews.
- Deployed the application for real-time prediction of user input

Financial Behavior and Risk Analyzer | Python, NLP, Machine Learning

2026

- Developed a system to analyze user financial behavior and classify risk levels using ML techniques.
- Applied NLP to extract sentiment insights from financial text data.
- Built and evaluated classification models to identify high-risk Patterns.

Agricultural Crop Auction System | Python, Machine Learning, SQL

2025

- Developed a platform to connect farmers and buyers for efficient crop auctions.
- Implemented Machine Learning models to predict optimal crop pricing based on market data.
- Designed a database system to manage auction listings, bids, and transaction records.

Research Paper Simplifier using AI | Python, NLP

2026

- Built an AI-based system to summarize complex research papers into simple, readable content.
- Applied NLP techniques for text preprocessing and key information extraction.
- Generated concise summaries to reduce reading time and improve understanding.

CERTIFICATIONS

- Google Cloud Career Launchpad – Cloud Engineer Track | Google Cloud
- Deep Learning Specialization | DeepLearning.AI (Coursera)
- Fundamentals of Natural Language Processing | University of Colorado Boulder (Coursera)
- Machine Learning | NPTEL (IIT Madras)
- Python Training (Python 3.4.3) | IIT Bombay
